Hartington's Assurance—Bloody Riots in Amsterdam—Charges of Official Corruption—Grafters Still Under Arms—The New Hebrides Affair.

LONDON, July 27.—Long before the time appointed for the meeting the Carlton Club building was surrounded by a large crowd. The people were evidently strong sympathizers with the dominant party, and cheered each leader as he appeared. Lord Salisbury, Lord John Manners, and Lord Charles Grosvenor were welcomed with applause that was specially expressive of the Right Hon. W. H. Smith, who was chief secretary for Ireland for a fortnight preceding the close of Lord Salisbury's last government, was cheered heartily when he arrived, and the applause which greeted the Marquis of Salisbury when he made his appearance mounted to an ovation. The new premier was even more heartily received by the meeting inside. He made an address on the political situation. He congratulated his hearers on the success of the conservative party in the recent elections, and dwelt on the importance of the new government in the eyes of the world. He then turned to the question of the new Hebrides islands, and said that the British Government was determined to maintain its rights in the islands, and that it was not prepared to negotiate with France on the subject. GENERAL SPORTING NEWS.

THE NATIONALS AID TO THEIR LONG LIST OF BAD DEFEATS.

Amateur Base-Ball—Games Elsewhere—Local Football—Hatters—Horse Races at Home and Abroad—A Sweeping Challenge—Various Other Items.

The Nationals were easily defeated by the New York club yesterday in a game that was marked by but few interesting plays, and as the visitors had every thing their own way from start to finish the contest did not have much interest for the local enthusiasts. The "Giants" started out in the second inning and pounded the ball all over the field for three earned runs and thereby virtually settled the contest as never thereafter did the home team get within reach of the New Yorkers. Mr. Butler's boys also made a run in the fifth inning on Gillip's base hit, his steal to second, and Dorgan's two bagers. This made a score of 4 to 0, but it did not long remain so, the seventh inning Carrol rolled off with a beauty to left field for two bases, stole third in a masterly style, and in the eighth inning on Baker's sacrifice hit to first.

In the eighth inning after two men were out on base, four unassisted runs were scored on four base hits and stupid and inexcusable errors on the part of the home team. The Nationals were unable to do anything, and played out the game as well as poor judgment on one would expect of beginners in the ball business. In the ninth inning the Nationals were again defeated, and the game was a complete rout. The Nationals were again defeated, and the game was a complete rout.

SWALLOWED UP BY FIRE.

BARBOUR & HAMILTON'S EXTENSIVE BUSINESS HOUSE DESTROYED.

The cry of fire made by several men on Pennsylvania avenue, near Fifth street, at 9 o'clock last night, made everyone on that thoroughfare stop and look for it. It did not take long to locate it, as the big volume of smoke pouring out of the fourth-story windows of Barbour & Hamilton's store, 614 Pennsylvania avenue, showed where it was. The cry was heard by Officers Lamb and Acton, who, seeing the nearness of the fire, immediately turned in to the fire department.

CONGRESSIONAL SUMMARY.

THE HOUSE OBSTRUCTING IMPROVEMENT OF THE POTOMAC RIVERS.

Northern Pacific Land Forfeiture Bill Passed by the House—The Senate Remains Most of the Day in Secret Session.

In the Senate yesterday Mr. Sewall, from the committee on pensions, reported back the vetoed Senate bill granting pension to Mrs. Annie A. Owen, recommending its passage notwithstanding the President's objection. Calendar.

Mr. Allison, from the committee on finance, reported back the House joint resolution directing payment of the surplus in the treasury on the public debt, with an amendment.

Mr. Blair (a member of the committee) stated that this was the report of a majority of the committee, but that the minority adhered to the House resolution. Calendar.

On motion of Mr. Van Wyck, the House amended the bill to read: "The pension of Mrs. Annie A. Owen, recommended by the amendment reduces the pension from \$50 a month to \$45."

Mr. Blair gave notice that he would act on the vetoed pension bill on Thursday after the House adjourns.

Mr. Palmer presented the resolutions of the Fairbanks Post (Michigan) of the Grand Army of the Republic in favor of the passage of the pension bill. The resolutions were referred to the committee on pensions.

Mr. Willis, of Kentucky, from the conference committee on the river and harbor appropriation bill, reported a continued disagreement. He offered a resolution declaring it to be the sense of the House that the item making appropriation for the improvement of the river and harbor should be stricken from the bill.

Mr. Willis expressed great sympathy with any effort to make free every waterway of the country, and he expressed sympathy at the present moment with the necessity of providing for the wants of the great river and harbor. He feared that if these schemes were placed upon the bill they would sacrifice all the other great improvements which were being made.

Mr. Groves, of Ohio, favored the resolution, and he expressed sympathy with the life of the bill would be improved.

The resolution was agreed to—100 to 63. Mr. Willis then offered a resolution instructing the committee on appropriations to strike the item making appropriation for the improvement of the river and harbor from the bill.

Mr. Plumb, of Illinois, opposed the resolution, as did also Mr. Springer, of Illinois, and Mr. Hendon, of Illinois. He feared that if these schemes were placed upon the bill they would sacrifice all the other great improvements which were being made.

Mr. Hendon, of Illinois, took the same ground, declaring that the Hennessey canal question "would not down because it was a question of the improvement of the river and harbor of the people. (Applause.)"

Mr. Hatch, of Missouri, supported the resolution, and he expressed sympathy with the life of the bill would be improved.

Mr. Hendon, of Illinois, took the same ground, declaring that the Hennessey canal question "would not down because it was a question of the improvement of the river and harbor of the people. (Applause.)"
